

# Dirt Bikes

It takes confidence to grab the holeshot during a race or get out in front of the pack on the trail – confidence that your bike will respond the way you want and confidence that you can push it to the limit without fear of breakdowns. AMSOIL synthetic lubricants are durable and reliable. They are designed to maximize the performance of both bike and rider.

## AMSOIL delivers confident clutch feel.

AMSOIL provides excellent clutch protection.<sup>1</sup> How good is it? In extreme simulated-start testing, AMSOIL provided superior wear protection and kept clutch plates looking new.

<sup>1</sup>Based on dyno testing of a Honda® CRF450 dirt bike using AMSOIL 10W-40 Synthetic Dirt Bike Oil and a leading original equipment manufacturer 10W-40 conventional dirt bike oil.
